

HOMEOWNER DIY ABATEMENT SUPPLY MENU
Retail PPE, Containment & Disposal Packages for Self-Performing Homeowners

Why Buy a Package From Us?

As a Washington homeowner, you are legally permitted to perform asbestos abatement on your own primary residence (WAC 296-65-007). **That does not make it easy.** The specialty PPE, 6-mil poly, printed asbestos disposal bags, and hazard signage are not carried by hardware stores, and the closest permitted ACM landfill is a haul most people do not want to make.

We have the wholesale accounts and we have the trucks. Buy the materials you need from us at fair retail markup, and optionally hire us to haul your double-bagged waste to the landfill. You save the sourcing headache, we cover our time — and you stay safe and legal.

PPE & Containment Packages

Poly Tape (white PE, 2" × 60 yd)	roll	\$11

How We Compare to Local Retailers

We checked Home Depot, Lowe's, and Amazon so you don't have to. Here's the honest truth — **some items you can buy cheaper at the big-box store; others we beat on price.** The real reason to buy a package from us is **everything arrives together in one trip, properly sized for the job, with the safe-work guide, QR-code fit-test training, and the option to hand off disposal.** Spend your weekend doing the work, not running to three stores.

ITEM	HOME DEPOT / LOWE'S	OUR PRICE	NOTES
DuPont Tyvek 400 w/ hood & boot (each)	\$17.98	\$19	Comparable — HD has this in stock at similar price
3M 7502 Half-Face Respirator (M)	\$37 – \$40	\$65	HD is cheaper; ours bundles with QR fit-test training + liability disclaimer.
3M 7093 P100 HEPA Cartridge Pair	\$20 – \$28	\$19	We beat big-box by \$1 – \$9 per pair
Nitrile Gloves 7-mil (box of 100)	\$20 – \$30	\$23	Competitive — similar to big-box
6-mil Poly Sheeting 20'×100' roll	\$127.00 (HDX)	\$119	You save \$8 per roll

ITEM	HOME DEPOT / LOWE'S	OUR PRICE	NOTES
Asbestos Disposal Bags 30"×40" (100 bags)	Not on shelves	\$116	Big-box stores don't stock these locally — only online ship-to-store (3-5 day wait)
Asbestos Warning Sign 14"×20"	Not carried	\$6	Big-box stores don't stock these — specialty item
Decontamination Wipes (box of 100)	\$15 – \$28	\$25	Middle of range — depends on brand you pick at HD
Duct / Sheathing Tape (roll)	\$8 – \$15	\$13	Middle of range — commodity item

Legend: **Green = we save you money** • **Amber = comparable price** • **Red = big-box is cheaper (we tell you when)**

The bottom line: Our **packages** save you \$40 – \$100 versus buying every item separately at retail, and that's before counting your time and gas driving to Bellingham, Ferndale, and Burlington to gather it all. The **disposal service** saves you an entire day and a 400-mile drive.

Waste Pickup & Landfill Disposal Service

Once your abatement is complete and your waste is **double-bagged in our printed 6-mil asbestos bags with goosenecked and taped tops**, we will pick it up from your property and transport it to a Washington-permitted ACM disposal facility. Flat fees below include pickup within Whatcom County, generator manifest paperwork, \$125 facility minimum, tipping fees at \$500/ton, fuel, and labor for the haul.

DOUBLE-BAGGED BAGS	FLAT FEE	INCLUDES
1 – 5 bags	\$555	Pickup, \$125 facility minimum, tipping, fuel, ~2 hrs labor
6 – 15 bags	\$680	Pickup, tipping (up to ~500 lbs), fuel, ~3 hrs labor
16 – 30 bags	\$880	Pickup, tipping (up to ~1,000 lbs), fuel, ~4 hrs labor
31 – 50 bags	\$1,585	Pickup, tipping (up to ~1,750 lbs), fuel, full-day labor
50+ bags	Custom quote	Call (425) 923-6994 — may require trailer or multiple trips

Service area: Whatcom, Skagit, and north Snohomish Counties. Overweight loads (>specified tonnage) billed at \$500/ton over-tier. Pickups outside service area billed at \$1.25/mile round trip from Bellingham 98226.

What You Need to Know Before You Start

- **Homeowner exemption:** WA law allows you to abate asbestos on your own owner-occupied, single-family residence without a contractor license — but **it does not exempt you from proper disposal at a permitted facility.**
- **Notification:** Larger projects may require written notification to NWCAA (Northwest Clean Air Agency) before work begins. Call us if you are unsure — we will tell you honestly whether you need to file.

- **Wet methods only:** Never dry-sand, grind, or power-tool asbestos materials. Mist with amended water before and during removal to suppress fiber release.
- **Double-bag, label, and goose-neck:** Every bag must be closed with a goose-neck twist and taped, then placed in a second bag and closed the same way.
- **When in doubt, stop and call us.** If the scope is bigger than you expected, a hired abatement may actually be cheaper than what it will cost you in time, rental equipment, and risk. No pressure either way.

Need to File a NWCAA Notification?

If your project involves more than **10 linear feet of pipe insulation, 48 square feet of other ACM, or any demolition of a structure over 120 square feet**, you must file a notification with the Northwest Clean Air Agency (NWCAA) **at least 10 days before work begins**. A fee applies. Scan the QR code to go directly to the online application.

NWCAA Online Notification Application

The Northwest Clean Air Agency regulates asbestos removal and demolition in Whatcom, Skagit, Island, and San Juan counties. The online form takes about 15 minutes and requires your project address, material type, quantity, start/end dates, and payment of the filing fee.

Not sure if you need to file? Call us at (425) 923-6994 — we will tell you honestly and for free.
