

HOMEOWNER WASTE GENERATOR AUTHORIZATION

Asbestos-Containing Material (ACM) Transport & Disposal

WHY YOU'RE SIGNING THIS FORM

When asbestos waste is transported to a landfill, the law requires three parties to be identified on paper: the **generator** (the person who created the waste — you), the **transporter** (the company hauling it — us), and the **disposal facility** (the landfill). This is called a "waste manifest" or "chain of custody."

Because Washington's homeowner exemption (WAC 296-65-007) only applies to **you doing the abatement on your own home**, you are legally the generator of this waste — not us. The landfill will list your name on the disposal record, not ours.

By signing this form, you are **authorizing** Absolute Asbestos Services LLC to transport your waste on your behalf, and **certifying** that the waste contains only what you say it contains, packaged the way you say it's packaged. That protects all three of us — you, us, and the landfill — from surprises.

When we return from the landfill, we will bring you back a stamped disposal receipt. Keep this form and that receipt together with your property records. They prove the waste was legally handled.

1. Waste Generator (Homeowner)

Full Legal Name	Date of Abatement Work
Property Address (where abatement was performed)	City / State / ZIP
Mailing Address (if different)	Whatcom County Parcel Number (APN)
Phone Number	Email Address

2. Waste Description

Type of Asbestos-Containing Material (check all that apply):

- | | |
|--|---|
| <input type="checkbox"/> Popcorn / textured ceiling material | <input type="checkbox"/> Asbestos cement siding or roofing (transite) |
| <input type="checkbox"/> Vinyl floor tile (VAT) and/or mastic | <input type="checkbox"/> Duct wrap / HVAC insulation |
| <input type="checkbox"/> Sheet vinyl flooring | <input type="checkbox"/> Vermiculite attic insulation |
| <input type="checkbox"/> Thermal system insulation (TSI / pipe wrap) | <input type="checkbox"/> Associated PPE, poly sheeting, rags, tape |
| <input type="checkbox"/> Drywall joint compound | <input type="checkbox"/> Other: _____ |

Number of Double-Bagged Bags	Estimated Total Weight (lbs)	Estimated Volume (cubic yards)
------------------------------	------------------------------	--------------------------------

Bag Preparation Certification:

- All waste is contained in printed 6-mil asbestos disposal bags.
- Each bag is DOUBLE-BAGGED (inner bag inside an outer bag).
- Each bag closure is goose-necked and sealed with duct tape.
- Each outer bag is clearly labeled or printed with asbestos warning text.
- Bags are staged in a safe pickup location accessible to our vehicle.

3. Homeowner Certification

By initialing each statement below, I certify under penalty of perjury that:

Initial:	(1) I am the owner-occupant of the property listed in Section 1, and the abatement work was performed on my own primary residence, consistent with the homeowner exemption under WAC 296-65-007.
Initial:	(2) I personally performed the asbestos abatement. I did not hire an unlicensed contractor or employ laborers to perform the work for me.
Initial:	(3) The waste described in Section 2 contains ONLY the materials I have checked. It does not contain liquids, chemicals, biohazards, radioactive materials, lead-contaminated debris, or any other regulated waste not disclosed above.
Initial:	(4) All waste has been double-bagged, goose-neck sealed, and staged in accordance with the bag preparation certification in Section 2.
Initial:	(5) I have not commingled asbestos waste with regular household garbage, construction debris, or recyclables.
Initial:	(6) I authorize Absolute Asbestos Services LLC to transport this waste on my behalf to a Washington-permitted asbestos disposal facility, and to sign transport-related documentation on my behalf as my agent for the limited purpose of delivery to the facility.
Initial:	(7) I understand that I remain the legal generator of this waste, and that the disposal facility will record my name as the generator on its intake records.
Initial:	(8) I agree to hold harmless Absolute Asbestos Services LLC from any claim, fine, or liability arising from material misrepresentation in this authorization, including undisclosed waste types or improperly prepared packaging.

4. Generator Signature

Homeowner Signature	Printed Name	Date
---------------------	--------------	------

5. Transporter (Completed by Absolute Asbestos Services)

Company Absolute Asbestos Services LLC	WA L&I Contractor License # ABSOLAS789LJ
Driver / Agent Name (printed)	Vehicle Plate Number
Pickup Date	Destination Disposal Facility

Transporter Signature (acknowledges receipt of waste and this authorization) Date

6. Disposal Facility Receipt (Completed at Landfill)

Facility Name	Facility Permit Number
Delivery Date	Weight Ticket / Receipt Number
Actual Weight Disposed (lbs)	Facility Representative Signature / Stamp

REGULATORY FRAMEWORK: This form is executed under the following authorities: **WAC 296-65** (WA Asbestos Removal Rules), **WAC 296-65-007** (Homeowner Exemption), **40 CFR Part 61 Subpart M** (EPA NESHAP), **RCW 70A.200** (Solid Waste Management), and applicable NWCAA regulations. Retain this completed form and the disposal facility receipt for a minimum of **three (3) years** from the delivery date.
